

COMMUNITIES MENTAL HEALTH AND WELLBEING FUND 2025/2026 GUIDANCE

Background

The Communities Mental Health and Wellbeing Fund (Adults) was established in October 2021 to support mental health and wellbeing projects in communities across Scotland. To date £66 million has been distributed to community initiatives supporting mental health in Scotland. Funding for a fifth and sixth year (£15 million each year) was announced in March 2025.

The fund is delivered through a locally focussed and co-ordinated approach led by Third Sector Interfaces (TSIs) via local Steering and Partnership Groups. These groups comprise representatives from the Third Sector, Health and Social Care Partnership (HSCP), NHS, Local Authority and people with lived experiences or other relevant stakeholders.

SVE and CTSI will be engaging closely with HSCP representatives to ensure that the fund builds on and enhances local strategic planning for mental health and wellbeing. You can read the HSCP strategic plan [here](#).

The fund has a strong focus on prevention and early intervention and aims to support community-based initiatives that promote and develop good mental health and wellbeing and/or mitigate and protect against the impact of distress and mental ill health within the adult population. The fund enables communities to develop their own solutions and promotes developing stronger partnerships which are reflected in the levels of grants available.

Grassroots community groups and third sector organisations will be able to benefit from the funds which have a strong emphasis on responding to the cost-of-living crisis and those facing socio-economic disadvantage. Community groups and organisations can deliver targeted activities and programmes to re-connect and revitalise communities building on the successes of previous years.

The Scottish Government commissioned an independent evaluation on the delivery and impact of the fund for years one to three, which can be accessed [here](#) on the Scottish Government website.

Fairer Funding Pilot

This year the Community Mental Health and Wellbeing Fund for Adults is being funded through the Scottish Government's Fairer Funding Pilot. This has enabled us to offer a proportion of the grants as two-year grants. More information can be found following the link [Fairer Funding Pilot](#). Please indicate whether you are applying for a one or two year project. The second year of funding is subject to Scottish Government Budget approval. The second year of funding will only be released to projects following completion of evaluation processes and once all of the conditions of grant have been met for the first year

Funding Award Levels

Grants will be confirmed **after 25th November 2025**. These will be allocated as soon as possible after receipt of the signed Terms and Conditions and must be spent within 12 months from the receipt of monies.

Groups can submit **one application per local authority area (Stirling and Clackmannanshire)** provided the activities are being delivered in that area.

The steering group will consider funding applications from un-constituted groups, either by supporting them to become constituted, or by providing small value grants (for example up to £2,000) for wellbeing support and capacity building purposes. Support for this can be accessed through Tracey Nicholson (SVE) and Brian Weaver (CTSI) see contact information below. There will be two levels of awards.

The Steering group also allocate funding through the Ideas Innovation and Improvement Fund (III Fund) and if your application is not shortlisted for the Communities and Mental Health and Wellbeing Fund it will be considered by the panel for the III Fund.

Funding award levels are as follows;

Fund Outcomes

The intended aim of the Fund is to **support community-based initiatives that promote and develop good mental health and wellbeing and/or mitigate and protect against the impact of distress and mental ill health within the adult population (aged 16 or over), with a particular focus on prevention and early intervention.** Specifically the fund aims to:

1. Tackle **mental health inequalities** through supporting a range of at-risk groups (as outlined under what projects can be funded).
2. Address priority issues of **social isolation and loneliness, suicide prevention and poverty and inequality** with a particular emphasis on responding to the cost-of-living crisis and support to those facing socio-economic disadvantage.
3. Support **small 'grass roots' community groups** and organisations to deliver such activities.
4. Provide **opportunities for people to connect** with each other, build trusted relationships and revitalise communities.

The Fund also seeks to contribute to the following national outcomes from the National Performance Framework:

- We are **healthy and active**
- We live in **communities** that are inclusive, empowered, resilient and safe
- We **tackle poverty** by sharing opportunities, wealth and power more equally

Specifically, the intended outcomes of the Fund remain the same as in Years 1 to 4 and are to:

- Develop a **culture of mental wellbeing and prevention** within local communities and across Scotland with improved awareness of how we can all stay well and help ourselves and others.
- Foster a **strategic and preventative approach** to improving community mental health.
- Support the **resilience of communities** and investing in their capacity to develop their own solutions, including through strong local partnerships.
- Tackle the **social determinants of mental health** by targeting resources and collaborating with other initiatives to tackle poverty and inequality.

The Fund also directly contributes to Outcome 4 of the Mental Health and Wellbeing Strategy published in June 2023:

“better equipped communities to support people’s mental health and wellbeing and provide opportunities to connect with others”

It also clearly supports the three key areas of focus in the Strategy:

- Promote positive mental health and wellbeing for the whole population, improving understanding and tackling stigma, inequality and discrimination;
- Prevent mental health issues occurring or escalating and tackle underlying causes, adversities and inequalities wherever possible; and
- Provide mental health and wellbeing support and care, ensuring people and communities can access the right information, skills, services and opportunities in the right place at the right time, using a person-centred approach.

Who can apply?

This fund supports initiatives that promote mental health and wellbeing at a small scale, grassroots, community level. Funded organisations do not need to have mental health and wellbeing as their sole focus, but their application does have to **clearly outline how their proposed project benefits the mental health and wellbeing of people in their community.**

Applications will only be accepted from a range of voluntary, 'not for profit' organisations, associations, groups and clubs or consortiums/partnerships which have a strong community focus for their activities. The range of organisations eligible to apply are:

- Scottish Charitable Incorporated Organisations (SCIO)
- Unincorporated Associations
- Companies Limited by Guarantee
- Trusts
- Not-for-profit company or asset locked company or Community Interest Companies (CIC)
- Cooperative and Community Benefit Societies
- Community councils
- Community Groups

This fund is for third sector/community organisations in Stirling and Clackmannanshire. We therefore will check that all applicants:

- are third sector (voluntary) organisations - third sector includes community groups, voluntary organisations, charities or social enterprises or any other not-for-profit groups; these groups will be expected to provide evidence of a government document
- are delivering services in Stirling and/or Clackmannanshire
- have returned all recording and evaluation paperwork from previous awards

The fund can support both existing and new projects. **Projects funded through the first 4 years of the fund are eligible to apply again but must clearly show how they will develop and improve in Year 5/6** (for example, in increasing accessibility and reach to different groups and where possible demonstrate impacts of year 1-3).

We have additional requirements for both applicants and successful grant recipients. We are member organisations and as such, we ask applicants to become a member of SVE/CTSI to ensure they have access to up-to-date information on third sector support and funding (if you are not sure if your organisation is a member of either organisation, please get in touch with your local TSI).

Membership is completely free and links to SVE/CTSI Membership can be found below

[SVE's membership form](#)

[CTSI's membership form](#)

Organisations who are successful will be required to register with ALISS, if they have not already done so. ALISS is A Local Information System for Scotland, which is a wide directory of services and activities used by GP's and Community Link Workers to signpost individuals. This is an additional way to promote your activities and services to a wider network.

ALISS registration [here](#)

What projects can be funded?

The focus of the fund is on the adult population and on projects which help whole communities and/or community groups, in turn making a difference to the lives of the individuals.

The adult population is considered to be those ages 16 and over.

Community organisations, charities, social enterprises, volunteer groups, community councils, already have brilliant ideas about how mental health and wellbeing can be improved. That's why we are welcoming any applications from eligible groups that can demonstrate early intervention/prevention continue to support and promote positive mental health and wellbeing, particularly where the idea has been created with people in that community.

We do have limited funds however and believe in being open around how we will prioritise projects if the fund is oversubscribed.

Based on the needs in the Stirling and Clackmannanshire area we are particularly interested in projects addressing the following:

- Suicide prevention
- Recovery from addiction
- Social Isolation and loneliness
- Support for people with neurodivergence
- Physical Activity, nutrition and diet

We are interested in projects supporting the following groups:

- LGBTQ+ communities
- Gypsy/Traveller communities
- Unpaid carers
- People with long term health condition or disability including neurological conditions
- Frailty or mobility issues
- Asylum seekers and refugees
- People with learning disabilities/neurodiversity
- Women particularly women experiencing gender-based violence
- People facing socio-economic disadvantage
- People from a minority ethnic background
- People facing severe and multiple disadvantage

This funding is not intended to be core funding. Where groups or organisations have been funded in the past, we will expect to see a significant building on the previous funding, and new outcomes that will be met as a result of additional funding.

- Equipment – To enable a regular activity and these activities relate to the project outcomes and local needs
- One -off Events
- Hall hire for community spaces
- Staff Costs
- Training Costs
- Transport
- Utilities/running costs
- Volunteer Expenses
- Small capital spend up to £5,000

- Projects aimed at children under 16.
- Any goods or services that you buy or order before we confirm our grant.
- Items that only benefit an individual – for example, scholarships and personal clothing for individuals and equipment that is not shared.
- Routine repair and maintenance costs.
- Contingency costs, loans, endowments or interest
- Electricity generation and feed-in tariff payment
- Political or religious campaigning
- Profit-making/fundraising activities
- VAT you can reclaim
- Statutory activities
- Overseas travel
- Alcohol

Fair Work First Requirements

Since July 2025 the Scottish Government expects that grant recipients pay the real living wage of £12.60ph to all staff aged 16 and over. Please take this into consideration when budgeting your project costs.

If your organisation is heavily or entirely dependent on grant funding but cannot pay the Real Living Wage, please contact SVE/CTSI prior to submitting your application so we can discuss your proposal, as limited exemptions are available from the Scottish Government.

Monitoring and Evaluation

Successful grant recipients will be expected to monitor and report on how the grant has been spent and the impact that it has had. The panel will examine projects based on their evaluation plans and how they are able to show that they have achieved what they set out to do. For two-year funded projects, the second year of funding will be dependent on the submission of adequate monitoring and evaluation material.

How to apply

Applications for the Expression of Interest Form go live on the **25th August 2025**, you can apply via our online form by clicking [here](#).

The deadline for Expression of Interest applications is on the **15th September 2025**. Please complete all sections of the application form and submit:

- A copy of your governing documents

Applicants invited to fill in a full application will be contacted on or after **10th October 2025**.

- A copy of your organisation's most up to date Annual Accounts,
- Your latest bank statement

Those unfamiliar with using an online form may find it beneficial to write responses first and/or save responses in a word document as you go along.

Frequently asked question (FAQ's) are located [here](#)
